This after school enrichment program is geared to all kids that love Legos. Each week, we will focus on a building skill, technique, or design in the hope that it will inspire and encourage students to use their imagination and creativity. This fun workshop aims to teach kids how to translate concepts from their imaginations into Lego creations, all in a positive learning environment. In addition, it helps refine motor skills for younger kids and teaches teamwork, cooperation and following directions, all essential skills for learning development. All skill levels are welcome. Best of all, the instructors are kids too! Each class is open to a maximum of 25 students; if more than 25 applicants, we will choose by lottery system.

**COST: Free**

**ABOUT THE INSTRUCTOR:** Andrew Fukui, FRES graduate of class 2011, is currently a Junior at Lincoln High School. He keeps himself busy with Honors and AP Classes, numerous clubs and currently an officer for the Interact-Key Club. This year, he is fully committed to keeping active with community service work through National Honor Society and the Kiwanis-Interact Key Club, hence the conception of the Lego Club, approved and funded by our very own PTO. He will be assisted by other students and moderated by a parent and/or teacher. At this year's Lego Convention in Santa Clara, "Bricks by the Bay", Andrew won *Best in Sci-Fi/Fantasy – Teen Division!!!* He looks forward to showing off his Lego skills and proving that Lego is not just a toy... it is more than that. See you in class!!! **For questions, please contact Fosskett Ranch PTO at [ptofres@yahoo.com](mailto:ptofres@yahoo.com).**
